A Home Of Your Own Should Be A Pleasure, Not A Headache

Buying your home can be the biggest investment of your life, and certainly the most important one! It's where your dreams become realities. It's where quality of life, not quantity of problems, should be your main concern. Most home buyers use all of their available cash and credit to purchase a home.

What if a major appliance, water heater or furnace malfunctions or stops operating altogether?

Who would you call? How would you afford the costs of repair?

We have partnered with UNIRISC to provide a Home Protection Plan to help you handle unexpected and costly breakdowns of your vital home systems - heating, plumbing, electrical and more. The UNIRISC Home Protection Plan not only puts you in touch with the people who can fix the problem, but they will even help pay for it!

UNIRISC Will Cover You

When something goes wrong due to normal wear and tear, the UNIRISC Home Protection Plan is there to help make it right - for one full year after closing for home buyers. When home systems fail, UNIRISC will repair or replace them. You decide on the amount of coverage you need by choosing our Basic Coverage and adding on items covered in our Optional Coverage in order to get the peace of mind you need!
